Enabling Communication in Children with Autism | Carol Potter | ISBN: 9781853029561 | Kostenloser Versand für alle Bücher mit Versand und Verkauf durch Amazon. Addressing the complex issue of what constitutes a communication enabling environment for children with autism who use little or no speech, Potter and Whittaker show that the communication of these children can be significantly affected by a range of social and environmental influences. Enabling communication in children with autism is based on a two-year research project undertaken in five special schools, with eighteen children with severe autism and minimal or no speech, ranging in age from two to six.
